PERGOLA CONNECTORS

Pergola corner connector

DMX® pergola connectors are simple and fast solution that allows you to build a structure in your own garden - just add wood. Black painted elements, together with dedicated bolt caps, increase the aesthetics of the entire connection.

NEW

Postfoot dedicated to connecting square wooden posts with concrete. In contrast to other postfeet, PSPW has fittings inside the post clearance, and not outside of it, improving aesthetic values of the product.

For mounting our products we recommend:

■ wood:

CTO

PNP

■ base:

PBK

PBW

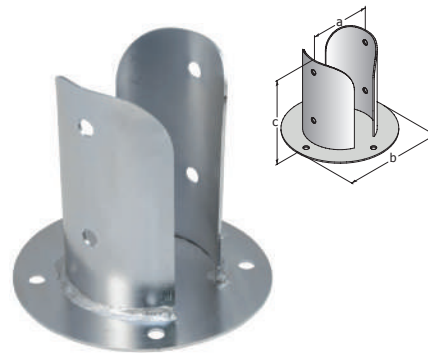

Postfoot dedicated to connecting square wooden posts with concrete. The installation openings outside the postfoot ensure the structure stability, while the deeply-cut sides help to highlight the wood texture.

GRINDLINE®

PSPOD

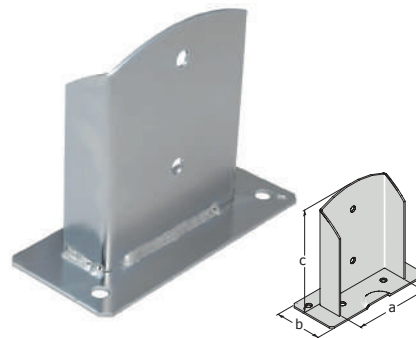

Postfoot dedicated to connecting round wooden posts with concrete. The installation openings outside the postfoot ensure the structure stability, while the deeply-cut sides help to highlight the wood texture.

4935160	PSD 160	3,0	162	100	200
4935200	PSD 200	3,0	202	120	200

For mounting our products we recommend:

■ wood:

CTO

■ base:

PBK

PBW

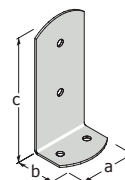

Split postfoot dedicated to connecting wooden posts with concrete. If you use two PSD postfeet, you can install a rectangular post and adapt the postfeet to its width. A single PSD postfoot can be used to install a post at the wall.

GRINDLINE®

PSC

[mm]

index	symbol	⚙	a	b	c
4938045	PSC 45	2,0	45	47	170
4838060	PSC 60	2,0	60	62	170
4938075	PSC 75	3,0	75	63	200
4938090	PSC 90	3,0	90	63	200

Lightweight post-foot dedicated to connecting wooden posts with concrete. Its minimalist structure makes the component more discrete, while using two PSC postfeet will allow you to install a post of any cross-section.

For mounting our products we recommend:

■ wood:

CTO

■ base:

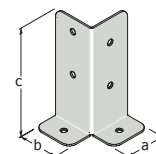

PBK

PBW

PSB

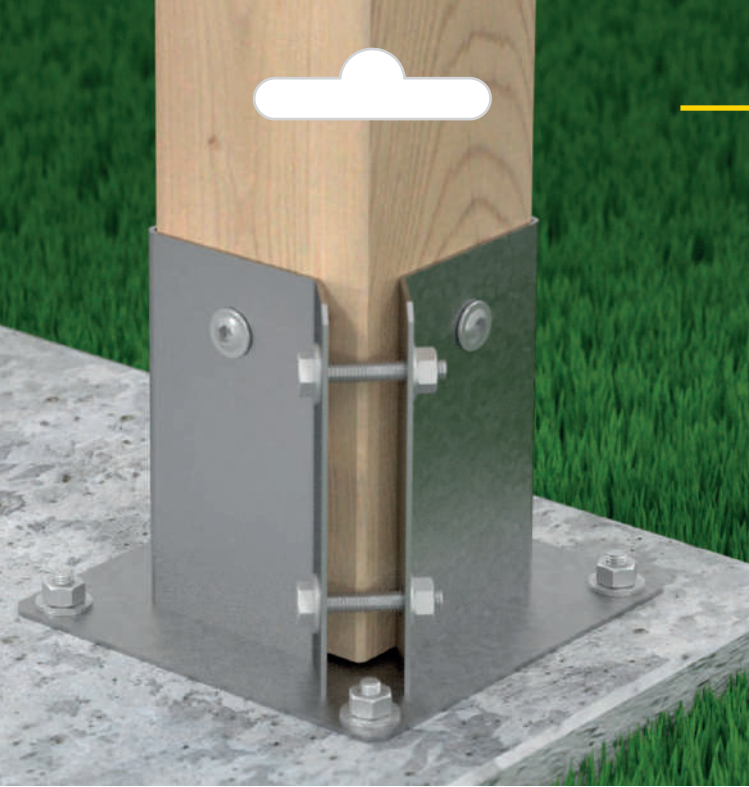

[mm]

PWO

NEW

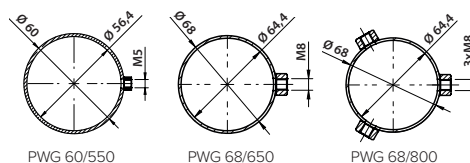

The ground screws will prove useful when building a fence, bower, shed or even a garden umbrella. Additionally, the PWO / PWS have tips that allow the hole diameter to be adjusted to the mounted object.

Material (PWO, PWS, PWG): hot-dip galvanized steel.

SWING MOUNTING SCHEME

The mounts are equipped with shackles and carabiners, thanks to which the assembly of the swing is simple and doesn't require additional tools. Slide bearings improve durability and comfort of use.
